Wild Animal Charades

After learning about different animals, encourage the children, one at a time, to act out one animal for the other children to guess. Have them whisper in your ear which animal they will be (they tend to change their mind mid-acting!). Or show pictures of the animals to the children. Show each child a picture of one and tell them to act that one out so the others can guess! You may have to start the activity. **Target: peer interactions**

Scent Hunt

We talk about ways lions use their sense of smell. Cotton balls are placed around the room: a few unscented cotton balls and some with scented oil. The children pretend to be lions on the hunt by crawling around, and use their noses to find the scented ones. If you have students with perfume allergies or asthma, be sure to use natural scented oil, such as peppermint oil.
